**BRING  
NEW LIFE  
TO YOUR  
HOME.**

AN IKEA ARMCHAIR FROM 1951.  
RENEWED WITH A CUSHION FROM TODAY.

# Bringing new life to an old favourite.

*Bringing new life to a home can also mean bringing an old favourite back to life. Like STRANDMON, an improved version of the classic MK armchair that IKEA released in 1951, which sold for many years.*

*Actually, the MK armchair on this catalogue cover is from the '50s and belongs to the founder of IKEA, Ingvar Kamprad.*

*In the first IKEA catalogue, published in 1951, the armchair was featured for its 'top of the line quality'. Now, 61 years later, we figured that people still want a high back wing chair that provides comfortable seating when reading, watching TV or using a tablet. And that's why we decided to give new life and a new name to MK.*

# THE SOFTER SIDE OF LIFE.

What brings life to a home? Surprisingly, it isn't always what you first think of when you're about to re-furnish your home. Many times it's the small, soft stuff. Curtains, bedding, linen, rugs, pillows and blankets make a bigger difference than you might think. And they are a vital part part of creating everyday well-being. An easy, fast and affordable way to showcase your creativity and give a home warmth and comfort. And life.

# YOUR HOME IS EXACTLY THAT. YOURS.

We believe in an unconstrained way of living – where the most important thing is to have a home you feel comfortable in everyday. A home where you can express your style, a home that puts your comfort first and has a big heart for welcoming friends and family no matter whether it is Tuesday or Saturday. That's also why we design fabrics that are made for drawing on, sofa covers that are not afraid of stains and mattresses that let everyone choose their desired comfort. So that everyone can feel comfortable, in their very own way.

# IT'S ALL ABOUT IDEAS.

You don't have to buy a single thing to bring new life to a room. Start with what you have, then apply a fresh eye and a few spare minutes. Move the sofa to a new spot. Swap curtains. Borrow a rug from another room. It doesn't have to cost a thing. It's about ideas. There's no right or wrong. If you can imagine it, try it. And have fun.

# THERE IS MORE TO LIFE THAN FURNITURE.

The idea of IKEA is to create a better everyday life at home. It's a simple idea based on what we think is most important in life, and why we're here. We're not going to try to explain life, but we know there's more to life than furniture. And everyone deserves to have a beautiful home and still have money left over for other things. At IKEA, we're inspired by all the magical moments that happen every day. These moments keep us going, evolving and constantly thinking of how to make life at home better, more beautiful, simpler and more affordable.

# A SMALL LIGHTING REVOLUTION.

Who would have thought that such a small thing like diodes would create a revolution in lighting? Well, they have. LED lighting uses up to 85% less energy than incandescent bulbs, lasts 20 times longer and contains no mercury. And since the diodes are so small they can easily be integrated in lamp designs never seen before. It may sound too good to be true. But it's not. LED gives you completely new light at home, while saving money on lower energy bills and helping the planet by using less energy. Isn't that an everyday revolution?

# ORGANISING.

To us, being well organised is all about feeling good. Knowing where you left your keys yesterday or where your important papers are stored. Imagine not worrying so much about these things? Well organised, your home will start working for you instead of the opposite. And as an added benefit, organisation also makes your home more beautiful. For instance, you can bring new life to your most precious things by placing them in a glass-door cabinet. And all those not-so-pretty things can be hidden behind solid doors. Now that's what we call a well organised home.

# SLEEPING.

When you sleep your body and mind recover. A good night's sleep contributes to better health. So, what is a good night's sleep then? Well, for starters it is a comfortable bed. But it's also about creating the right atmosphere for going to bed and waking up. A place to keep the books. A lamp to set the mood. Soft linen against the skin. We believe the bedroom should be the most comfortable place in the home. A comfort that includes fitting the entire family into bed for story time, wrapping up tight with the one you love, or simply waking up feeling rested.

# COOKING.

The kitchen is more than a room where we cook. It's the heart of the home, the busiest spot in the house, the headquarters for everyday activity. It's where every day begins and every good party ends. Where leftovers get a second chance and you always get to lick the spoon. You could say that the kitchen is one of the most important rooms in your home. Because if the kitchen doesn't work, then nothing else works either. We believe that kitchens are what we make them, and that no dream is too big to turn into a reality.

# Sometimes the simplest things are the most beautiful.

This kitchen is not in any way a simple kitchen. It's highly functional, just as kitchens should always be. Built to cope with all the hard work you put it through every day. Built to last for decades. It just doesn't show. Which is the true beauty of keeping things simple.

If all of us take small steps in being kinder to Mother Earth, it will make a big difference. You can't see it in this kitchen, but the appliances are energy efficient, the tap uses less water, and behind the doors are some great ideas on how to make recycling easy and convenient. Want to contribute to a better environment? Don't throw away leftovers. Store them in IKEA 365+ food containers instead. They each have a leak-proof lid and a vent that lets out steam when heating in the microwave.

A simple sorting system in your kitchen is the trick to making recycling a habit.

Save energy by using a steam insert in your pot. This means you can boil and steam different food at the same time, using one pot instead of two. Up to three inserts can be placed on top of each other.

*Water-saving taps are not only good for the environment, they're also good for your water bills. You can also save water by rinsing in a bowl instead of under running water.*

*Water boils up to 75% faster when the lid is on the pot, because heat doesn't escape. And if you save energy, you save both the environment and money.*

**RATIONELL/ANSLUTA  
LED lighting

*LED light uses up to 85% less energy compared to incandescent bulbs and lasts 20 times longer. Unlike other energy saving bulbs, LED lights up immediately and contains no mercury.*

## A large kitchen in a small space.

You can do everything in this kitchen. Cook, eat, bake, surf and play. Because when space is small, ideas get bigger. Like the drop-leaf table that folds down when you're not eating. Or the tablet storage on the wall. Or the small breakfast trolley that you roll out when needed. Simple ways to make the most of the space you've got.

Make your tablet part of your kitchen.

# EATING.

Fine dining isn't only about the silverware or fancy napkins. It's about who you invite for dinner and the conversations you have. It's all about creating a moment that feels as good as it tastes. That's how we think when we develop dining tables, chairs, dinnerware and glasses. That eating should also include chairs that are so comfortable that the talking never stops, and sofa covers that don't fear stains when it's time to cuddle up for that late evening snack.

# WORKING.

Our life's work is a work-in-progress. It's made up of lots of passions, lots of hobbies and lots of little everyday gotta-dos. We want to work in spaces that make it all a bit easier and a bit more enjoyable. Spaces where we can do work (or our hobbies) without our backs aching and getting stiff. Spaces that have enough storage to keep us sorted and enough personality to keep us inspired. Spaces that function like offices, but feel just like home.

It really is the easiest thing, yet so hard. Strange, when all you need to do is to kick back on the sofa, put your feet up, take a deep breath and... well, stay. Stay with a book, your knitting, your music, or whatever makes you relax. Because when a sofa is comfortable, the throw cosy, the lighting right and a snack within reach, it really isn't that difficult after all. Promise.

## A sofa to match your life.

Finding the right sofa isn't always easy. First, it should be comfortable, just the way you like it. Second, it needs to fit your home, be practical enough to cope with everyday life, and beautiful enough to be the centrepiece of a room. Lastly, it needs to be affordable. When we design sofas, we try to make as many different kinds as possible. Different styles, different comforts, different colours and different shapes so that you can match your sofa to your life.

01

## Design unlimited.

The fantastic thing about LED is that the diodes are small, they don't break, they last for many years, and they generate very little heat. This, together with the fact that LED is more sustainable than other kinds of lighting, has sparked some new creative ideas among our designers. Suddenly it's possible to create smaller lamps, spread light more evenly and integrate light in places never done before. Just take a look at the lamps on these pages. One is inspired by a showerhead from Hong Kong and another from a fisheye camera lens. Ideas unlimited, made possible with LED.

## A bed for when you're awake.

It's time to look at your bed a little differently. It's where you sleep, but it's also where books are read, TV is watched, work is done and breakfast is eaten. That's why IKEA beds are designed for more things than just sleep. Take our friend **DUKEN**, with the body of a bed and the soul of a sofa.

The plastic mesh in the headboard makes it perfect for sitting up and resting against. You can also choose between different changeable and washable headboard covers. Also, have a look at the beds with built-in drawers for bed linen, clothes and more. Want to try them out? Just head to your local IKEA store.

## A good day always starts with a good night.

We all sleep in our own way. That's why mattress comfort is different from one person to another. Latex, pocket springs, foam and horse hair – they all have different comfort qualities. And there's only one comfort that is the right one. The one you choose.

You are the only one who can determine what comfort will help you sleep well. Our job is to provide you with as many options as possible.

Try out the different mattress combinations in your local IKEA store. Lie on your stomach, your back, your side. And fine-tune the comfort with mattress pads, protectors, quilts and pillows. If you want some guidance and advice, you'll find help in-store or at [IKEA.com.au/mattresses](https://www.ikea.com.au/mattresses)

## Playing is a serious matter.

All children play. Mostly because it's fun, but also because they need to. Play is the way children learn about life. Copying their parents in role-plays, being creative with paint and paper and sparking their imagination with pictures and toys.

At Children's IKEA we take playing seriously, and not only for safety reasons. We believe children are the most important people in the world, and that they need stimulating and imaginative things to play with. The TORVA collection, for example, has both soft toys that look like fruits and vegetables and a bedtime story sketched out on a quilt cover. This way children can explore the outside world in a place they feel most safe. At home.

## QUALITY GUARANTEES

## General conditions for all guarantees

The benefits provided by the guarantees on the following pages are in addition to other rights and remedies available to the consumer under Australian Consumer Law.

### What is guaranteed?

The extent of the guarantee given for each product is described alongside each product below.

### Duration of guarantee

Each guarantee lasts for the number of years stated against each product below, starting from the date of purchase. The benefits provided by the guarantees are in addition to other rights and remedies available to the consumer under the law.

### What will IKEA do to correct the problem?

IKEA will repair the defective product or replace it with the same or comparable product. In these cases, IKEA will be responsible for the costs of repairs, spare parts, labour and travel for repair staff that IKEA incurs, provided that the product is accessible for repair without IKEA incurring additional expenditure to gain access. This will not apply in cases where repair work has not been authorised by IKEA. Any defected parts removed in the course of repair works will become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. IKEA will decide at its discretion, what constitutes an appropriate replacement.

### Conditions for the guarantees

The guarantees are valid from the date of purchase at IKEA. Proof of purchase is required for the guarantees to be valid.

### Exclusions

The guarantees do not apply to products that have been stored or assembled incorrectly, used inappropriately, abused, misused, altered, or cleaned with wrong cleaning methods or wrong cleaning products. The guarantees do not cover normal wear and tear, cuts or scratches, or damage caused by impacts or accidents. The guarantees do not apply if products have been placed outdoors or in a humid environment or if the products have been used for non-domestic purposes (unless otherwise stated). The guarantees does not cover consequential or incidental damages. For details see the guarantee conditions and description for every product.

Consumers are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

### How to reach us if you need service

Contact your local IKEA store. You will find the address and phone number on page 313 or at [www.IKEA.com.au](http://www.IKEA.com.au). Save your sales receipt as proof of purchase. Proof of purchase is required for the guarantees to be valid.

## 90-day no nonsense return policy

If you return your goods within 90 days, with your receipt, the goods unassembled and unopened in their original packaging, we'll give you a full refund. If the item has been assembled or is out of the original packaging, and you have a receipt, a store credit will be issued. Sorry, we cannot accept returns on altered fabric, wooden blinds cut to size, unwrapped mattresses, or goods ordered to your specifications (ie. custom-made benchtops).

We don't normally give refunds on products sold in the AS-IS (Bargain Corner) area if you simply change your mind or make a wrong selection. Exchanges and refunds can be given where goods are faulty (other than any fault that was communicated to you, or which ought to have been revealed by an examination of the product, at the time of purchase), wrongly described, different from a sample shown to you or goods that don't do what they are supposed to do.

Our goods come with guarantees that cannot be excluded under Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

## Love it or exchange it. Seriously.

Don't lose sleep over a mattress you don't love. If you discover your SULTAN mattress is too firm, too soft, or just not right, bring back the mattress and exchange it for another one within 90 days. Visit [IKEA.com.au/services](http://IKEA.com.au/services) for full terms and conditions.

A white three-seater sofa is the central focus, adorned with four pillows: one with vertical black and white stripes, one with large colorful polka dots, one with horizontal stripes, and one with a dark background and colorful floral patterns. The sofa sits on a floor covered in multicolored pebbles. In the background, there's a green wall, a white shelf with a small white horse figurine, and a framed picture of a bridge.
